

“Our business
can’t settle for a ‘9.’”

Mike Block
Assistant Vice President & IT Officer
The Equitable Bank

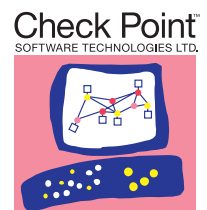

THE EQUITABLE BANK_{SSB}

Check Point Express. World-leading security for medium business.

The Equitable Bank can't compromise on security. That's why they chose Check Point Express™. Says Mike Block, Assistant Vice President and IT Officer: "Check Point Express offers affordable, worry-free security for our business." Only Check Point Express provides the same firewall and VPN technology that secures 97 of the Fortune 100. Its unique features include intelligent network and application-level protection, as well as centralized management. "Check Point Express is a long-term security solution that can grow with us," Mr. Block adds. "It's definitely a '10.'" To read the complete Equitable Bank success story, access detailed product and technical information, and compare Check Point Express to competing offerings, visit www.checkpoint.com/express.

Check Point Express comes pre-installed on appliances from Sun and Nokia and runs on open servers from Dell, IBM, and other leading manufacturers.
