TWC Aviation
SOARING BEYOND YOUR EXPECTATIONS

UNSURPASSED CUSTOMER CARE.

TWC Aviation offers you a worry-free jet ownership experience, with a level of customer care that's second to none. We'll serve as your trusted partner and advocate—maintaining your jet in perfect condition, helping you earn charter revenue, and saving you money on fuel, insurance, and more.

We are aircraft owners ourselves, and we share your passion for aviation. We have years of experience managing everything from light jets to ultra-long range aircraft. You can rely on our wide-ranging expertise and attention to every detail.

We will work closely with you to learn your personal requirements and develop a comprehensive management plan for your plane. You can always count on highly responsive and personalized service—and on our unwavering commitment to safety. We work continuously to exceed industry safety standards and maintain our accident-free record.

GET THE MOST OUT OF YOUR AIRCRAFT.

Operational excellence.

- **Experience highly personalized service.** You will have direct points of contact in key departments who are authorized to implement your requests. We will also assign a senior executive within our company to serve as your Client Relationship Officer (CRO) and assure your satisfaction.
- **Save money through smarter purchasing.** We always shop for the lowest fuel prices—and on multi-leg flights we identify the best fuel prices along the way to avoid fueling at more expensive locations. We also work with your crew on hotel, rental car, and other purchases.
- **Outstanding service and safety.** Our crew members are trained to provide the highest level of personal service, as well as to ensure your safety. If your jet requires two crew members, both the Captain and the First Officer will be type-rated on your aircraft. And all our pilots attend recurrent training in full-motion simulators every six months.
- **International Expertise.** Relax and enjoy your travels anywhere around the globe. Our highly experienced crewmembers and our Flight Coordination Staff will look after your comfort and safety while traveling abroad.

Expert maintenance.

- **Keep your jet in peak condition.** The factory-trained maintenance team at our FAA-Certified Repair Station is at your service 24/7.
- **Reduce your maintenance costs.** Our full-time Parts Manager will quickly find the right parts whenever they are needed, and negotiate the best possible price.

Financial advantages.

- **Receive a comprehensive monthly management report.** We charge just one fixed monthly fee which covers all our administrative services. Your detailed and customized report includes all operational data and financial reporting for both the previous month and year to date.
- **Enjoy lower costs of operation.** Our fleet insurance policy provides expanded coverage and greater benefits. You will also save on fuel, international handling, and pilot training.
- **Earn revenue when you're not using your jet.** Making your aircraft available for charter on our FAA certificate helps offset your ownership costs and boost your ROI.

REDUCE OWNERSHIP COSTS WITH CHARTER REVENUE.

- When you add your aircraft to TWC Aviation's charter fleet we will generate revenue that can significantly reduce your cost of ownership.
- TWC Aviation handles all the details—including FAA Conformity Inspection, marketing and sales, crewing, flight coordination, and invoicing and remittance.
- We maintain the strictest safety standards.
- You approve charter dates and itineraries.
- We handle the billing—and we guarantee payment.
- We collect and pay applicable sales, use, and excise taxes.
